

The First Annual Workshop on Mathematics in Medicine, Vienna 2015

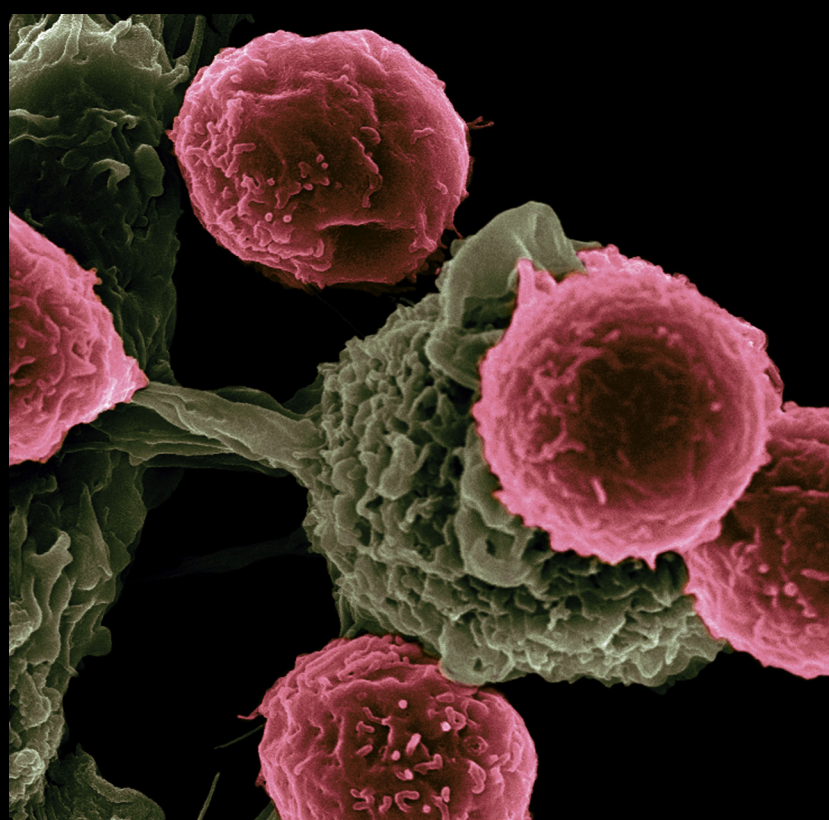

Models in Cancer Therapy

July 2 - July 3, 2015

Location: Faculty of Mathematics, HS 13, 2nd floor

Speakers:

Alexander Anderson	Moffitt Cancer Center
Walter Berger	Medical University Vienna
Jean Clairambault	INRIA Rocquencourt
Andras Czirok	University of Kansas
Christopher Gerner	University of Vienna
Florian Grebien	Ludwig Boltzmann Institute Vienna
Doron Levy	University of Maryland
Anna Marciniak-Czochra	University of Heidelberg
Jörg Menche	CEU Budapest
Benoit Perthame	University of Paris 6
Olivier Saut	CNRS, INRIA, Bordeaux
Peter Sykacek	BOKU, Vienna
Gergely Szakacs	Medical University Vienna

Vaccine-Based Immunotherapy from Novel Nanoparticle Systems. Image courtesy of Victor Segura Ibarra, Rita Serda, and the National Cancer Institute

Organizers:

Walter Berger	Medical University Vienna
Doron Levy	University of Maryland
Norbert Mauser	WPI and University of Vienna

Goals:

The workshop will provide mathematicians, experimentalists, and clinicians, an opportunity to discuss recent advances in mathematical biology and medicine.

The meeting will be used to identify new problems that require innovative mathematical approaches and to foster new collaborations.

Partial funding provided by:

WPI, WWTF
